* The complete product codes are 8 digits long. The first five digits are given in the table above. The sixth digit denotes the colour of the base plate (mounting frame). The last two digits denote the colour of the cover plate. Please refer the colour-digit lists on the side for more information.

Unparalleled Range

Pressfit LX offers a huge range of options ranging from 1 Module to 32 Modules. We have multiple sizes for each module which takes its compatibility to a different level.

Extra Mounting Points

Old electrical installations are like a box of chocolates:

You never know what you are going to get!

Pressfit LX has extra mounting points, i.e. screw holes, on the base plate to ensure your old box does not have to be changed when you switch over to Modular Switches.

Wide-Body Design

Pressfit's LX Plates are wider than any other modular switch plates. This means old boxes of odd sizes can also be covered up and you do not have to worry about visible gaps in the wall after installation or re-plastering it.

Variety of Colours

Customize the interiors of your homes with Pressfit's LX Modular Plates which come in a variety of colours. They are aesthetically designed plates made with precision to suit your exquisite taste.

LX Modular Plates (Base + Cover)

AVAILABILITY:

LX Modular Plates are available in a variety of cover and base combinations. Please contact one of our sales representatives for availability of the desired combination in your region.

CODING METHODOLOGY:

The complete product codes are 8 digits long. The first five digits are given in the table on the previous page. The sixth digit denotes the colour of the base plate (mounting frame). The last two digits denote the colour of the cover plate.
